BOX/ VENETIAN CHAINS

Box chains are made of box /square links that are joined in a smooth chain. The construction looks sturdy and its stylishly sleek and simplistic remain.

BEAD CHAIN

It is also known as "ball chain". The reason for this name is quite obvious. This type of chain consisting of small metal balls strung together on a wire. These small balls or beads comes with a fixed distance along the chain, either between each beads or strung next to the other. It can also be interspaced by short length.

ROLO CHAIN

Rolo chain is made up of symmetrical links (usually round or oval) that are related to each other. Each chains works absolutely while holding the pendant. These kinds of chain are ideal for charms and hang loosely to better effect and poise. It comes mostly with belcher bracelets and necklaces.

WHEAT CHAIN

From the word "wheat", an oval shaped links intertwined and joined together to form a chain. It is hard to follow because it was made of a great deal of visual texture. These wheat chains are normally form by four strands braided and woven together to make a splendid creation.

SNAKE CHAIN

Unlike rolo chains, snake chains are not made up of traditional linked rings. In fact, it is made of ingrained round, wavy, smooth metal plates forming a flexible tube. Comes from its name, snake- smooth and sleekly skin. It lends its form to jewelry and since most of us terrified by snakes; we relished the power by wearing them as ornaments.

SILVER BALL CHAIN

Silver chains are very available in the market today. It comes with different patterns, styles and sizes. Some of these are snake chain, rolo chain, box/venetian chain, omega chain, byzantine chain, and ball chain. With modern innovations and imaginative minds of people, it is possible to create such beauty. All of them create fashion to anyone who wears it. One of the most famous and commonly used silver chains is the silver ball chain. With our renowned collection it seemed necessary that we should be able to supply silver ball chain at the highest quality. Since ball chain is strong and light weight, it will not dangle nor curl for it was fastened by free turning parts. These kinds of chains are specially suited for men necklaces. Variation of this includes- multi-stranded silver bead chain, V- patterned form silver chain and the diamond cut bed chain. It is a fine choice to accommodate pendants or worn as a solo. Nice examples of this are the chain commonly worn long with a dogtag.

Just like other silver chain, the best thing to do is to choose the right size and length of silver ball chain depending on what is good on you. The only thing that makes your chain jewelry a little bit darker and prone to tarnish is when it is exposed to the air containing sulfur compound. According to jewelry designer Charles Albert, wearing your silver jewelry frequently is the best way to avoid discoloration. But if it's still blacken despite of your good effort, it does involved being clean.

These are the list of sizes you are to consider in choosing one. These chains are now available in the market.
